## EXTREME Good Looks

# Make your home the envy of your neighborhood

IKO's Dynasty™ premium laminated architectural shingles offer protection from inclement weather and peace-of-mind. PLUS they look fantastic, boost curb appeal and can potentially increase the resale value of your property.

Deep shadow bands add contrast and dimensional profile to give your roof a stunning, impressive appearance and roofline.

**Dynasty™ shingles with ArmourZone are manufactured in IKO's special "Advantage" size. Bigger than most competitors' comparable product, they offer greater exposure to give you a dramatic-looking roof that really stands out from the ordinary.**

Choose from 7 fresh, bold color blends. IKO's Color Blend Technology offers the perfect match for your home's architecture and your personal sense of style from rustic to urban, traditional to modern. Co-ordinated hip and ridge cap shingles are the ultimate accessory to create a spectacular new roofscape for your home.

### Design your own roof with **ROOFViewer™**

Start by visiting our website at [www.iko.com](http://www.iko.com) and try our exclusive **RoofViewer™ Interactive Shingle Selector Tool**. You can select a style of home and accessorize it with different colors of roof and trim or even upload a picture of your actual house!

# Dynasty™ with ArmourZone

## Battles the Elements, Protects Against Inclement Weather

When you choose Dynasty shingles with ArmourZone, you'll have the peace of mind that comes from knowing your home and family will be protected against the elements for many years to come.

A home's biggest enemy is water. Shingles are the first line of defense against water penetration. Shingles that blow off your roof in high wind simply can't do their job.

But high winds, rain and other forms of inclement weather are no match for IKO Dynasty shingles. Thanks to their advanced design, IKO Dynasty shingles are engineered to be one of the most wind-resistant shingles in the IKO line-up. That's why IKO provides a Limited Wind Warranty for winds of up to 130 mph (210 km/h)<sup>1</sup> with the use of only four (4) nails. That's equal to a Category 4 hurricane on the Saffir-Simpson Hurricane Scale.

**Here's a closer look at how IKO Dynasty™ shingles with ArmourZone are built to perform.**

<sup>1</sup>See Limited Warranty for complete terms, conditions, restrictions, and application requirements.

3 bundles = 1 full square - 100 sq ft coverage	

## STANDARDS<sup>†</sup>

ASTM D3462	ASTM D7158 - Class H
ASTM D3018	CSA A123.5
ASTM D3161- Class F	
ASTM E108 - Class A	

Shingles alone are usually not enough to protect your home. IKO has developed superior multi-layered roofing components incorporating our industry-leading products.

### 1. Eave Protection - *GoldShield, ArmourGard, or StormShield™ Ice & Water Protectors*

IKO's Ice & Water Protectors provide a second line of defense against water penetration due to ice dams or wind-driven rain and the costly damage it can cause. This product is also strongly recommended for sealing around vents, low pitch areas, ridges, hips, rake edges, chimneys, dormers, vent stacks, and skylights.

### 2. Underlayment - *RoofGard-Cool Grey or StormTite® Underlayment*

Use our innovative RoofGard-Cool Grey or StormTite® synthetic underlayment for total deck protection.

### 3. Roof Starters - *Leading Edge Plus Starter Strips*

Fast, easy and convenient. IKO's Starter Strips are already cut to size, saving valuable time during the installation of the first course of shingles. Compatible with all existing IKO Shingles, Leading Edge Plus includes a sealant strip at the bottom edge allowing for a tight seal.

### 4. Ridge Cap Shingles - *Hip & Ridge Plus, Hip & Ridge 12 or Ultra HP™ High Profile Ridge Cap Shingles*

Ridge cap shingles are required where roof planes meet, and provide additional protection along these high stress areas of the roof, enhancing your home's aesthetic appeal by accentuating the roof line.

Note: Product availability may vary by region. All values shown for Dynasty™ are approximate. <sup>†</sup> Product is designed and tested to comply with ASTM/CSA standards at time of manufacture. <sup>1</sup>See Limited Warranty for complete terms, conditions, restrictions, and application requirements. <sup>\*</sup>This article contains a preservative to prevent discoloration by algae.

Shingle Swatches and House Photography shown are as accurate as modern printing processes allow. Shingle swatches shown do not fully represent the entire color blend range of the shingles. To ensure complete satisfaction, please make your final color selection from several full size shingles and view a sample of the product installed on a home. Be sure to look at the color sample of all material in natural sunlight, at different times of day to ensure that your color choices are complementary.
